Professional Summary

Motivated and detail-oriented IT student with hands-on experience in web development, systems analysis, and UML modeling. Strong foundation in HTML, CSS, JavaScript, and modern development workflows using Visual Studio Code and GitHub Desktop. Known for clear communication, problem-solving, and the ability to learn new technologies quickly. Seeking opportunities to apply technical skills in real-world projects and grow as an IT professional.

Skills

- **HTML** — Semantic structure, forms, tables
- **CSS** — Flexbox, Grid, responsive design
- **JavaScript** — DOM manipulation, events
- **UML Modeling** — Activity diagrams, CRC cards, DCDs
- **Version Control** — GitHub Desktop workflow
- **Systems Analysis** — Use cases, requirements modeling
- **Problem Solving**
- **Communication**

Education

ITEC Program BA Honors — Web Development & Systems Analysis

[York University] — Toronto, ON

Expected Graduation: 2027

- Coursework includes: Web Development Fundamentals, Systems Analysis & Design, UML Modeling, Software Requirements, Project Documentation.

Projects

- **Web Portfolio** — Built a responsive multi-page website using HTML, CSS, and JavaScript.

- **UML Diagram Set** — Created CRC cards, activity diagrams, and design class diagrams for multiple case studies.
- **GitHub Workflow** — Managed version control using GitHub Desktop, including branching, commits, and pull requests.
- **Responsive Layout Demo** — Implemented Flexbox and Grid to create mobile-first layouts.

Experience

IT Student — Academic Projects

- Developed front-end interfaces using HTML, CSS, and JavaScript.
- Produced UML diagrams for system scenarios including PetCare Direct and restricted medication order workflows.
- Collaborated on team assignments, ensuring clear documentation and consistent design standards.
